HP ZGX Nano

EXECUTIVE STAGE · PRESENTER CARD

BEAT	PACE	WHAT TO SAY AND WATCH
S0 · Open	40 seconds	This little box runs four AI models, including a 120 billion parameter class model. Point to zero cloud calls.
S1 · Agent	110 seconds	Give the agent its job. Watch it plan, choose tools and run three models together. Show the deck, two languages and cover image.
S2 · Vision	50 seconds	It reads the whiteboard. Every action has an owner and a date, followed by the executive readout.
S3 · Rush	60 seconds	Six jobs at once. Point to the working app, images, queue states, memory and throughput.
S4 · Close	40 seconds	Show session totals and the dated text token comparison. Point to zero cloud bytes, then deliver the closing line.

CLOSING LINE

A desk side HP ZGX Nano runs a 120B class model and a real AI agent, privately, with zero cloud calls.

THREE EMERGENCY MOVES

V Backup video
Look for Recorded run. Next continues.

Hold R Reset
Hold for two seconds. Wait for recovery.

B or . Black screen
Press again to return.

Next: Right arrow, Page Down, Space or Enter. **Back:** Left arrow or Page Up. Back does not rerun. One early Next waits for the current work to finish. Begin with Ready all green. The SSH laptop stays backstage.
